

COVID - 19 | Key Indicators

Last Updated: 09-01-20

All dates are based when an indicator is reported and will not match data in other COVID-19 dashboards provided by the Ohio Department of Health. All other dashboards are based on onset date, date of hospitalization, or date of death.

Note: Totals include Confirmed and CDC Expanded Case Definition (Probable)

COVID-19 Community Spread

On July 4, 2020, a father and mother, their daughter, and a family friend in an Ohio county rode in the same vehicle on a 40-minute trip to a lake. The family friend had COVID-19, but she did not know it at the time. This graphic shows the illness and hardship stemming from that initial case.
